

# 4<sup>th</sup> International Conference on Electrolysis (ICE 2023)

27<sup>th</sup> Aug – 1<sup>st</sup> Sep 2023, Sun City resort, RSA

Third announcement and call for abstracts

**Abstracts submission: Currently open**  
**Extended abstract submission deadline: 31<sup>st</sup> March 2023**

## Conference Topics:

ICE 2023 will bring together the international community to present on all scientific and technical aspects of alkaline/PEM/solid oxide electrolysers: materials science, components, electrochemistry, modeling and diagnostics, operation, stack and system engineering, degradation, advanced concepts.

## Satellite events

### Game Drive

A game drive in Pilanesberg in an open safari vehicle allows close encounters with lion, leopard, elephant, rhino and buffalo.

### Industrial Tour

Experience an Industrial tour around Royal Bafokeng Platinum mine. Participation numbers are limited.

Participants should be:

- Be physically fit
- Not claustrophobic
- Able to walk up to 3 Km underground

After registration, email us at [ICE2023@nwu.ac.za](mailto:ICE2023@nwu.ac.za) to sign up for these events
